Have you ever read a research article and found it hard to decipher? OR, have you heard A LOT about ‘evidence-based practice’ and its importance for the profession but are not sure what it’s all about?
If you said yes to any of these questions, check out Clinical Practice: Making the Evidence Work

Program Details

15 Continuing Professional Education Credits (Level 1)
Sample CDR Learning Need Codes:
(9020) Evaluation and application of research
(9060) Research development and design

Cost: $150.00 ($10.00 per credit hour)

Learning Format: Web-based. Complete the 5 modules on your own time...online...and at your own pace...

Required Materials: A personal computer, an internet connection with at least a 56K modem, and a few other free downloadable programs.

Rutgers SHRP Department of Nutritional Sciences has been a CDR accredited CPE provider since 2003 and has a reputation as a leader in dietetic education and lifelong learning.

Course Description

These 5 web-based modules describe evidence-based practice and its importance for clinical decision-making. An interactive approach with audio narration, video clips, practical examples, and self-assessments embedded within each module is used. Concepts covered include:

- answering clinical questions using efficient literature search strategies
- critically reviewing/reading research articles
- locating the best research resources and electronic databases available to the clinician
