TARGETED AUDIENCE:
Cardiologists, Fellows, Advanced Practice Nurses, Physician Assistants, Nurses, Medical Students, Administrators, Managers, CEOs, COOs, Pharmacists, Physical Therapists, Occupational Therapists, Speech Therapists, Care Coordinators, Billing and Coding Professionals and other Allied Healthcare Professionals are welcome to attend.

OBJECTIVES:
Upon completion of this program, participants should be able to:

• Recognize the emerging role of team based delivery of healthcare in era of reform
• Discuss current policy and regulatory challenges related to team based care
• Review relevant billing and reimbursement practices and opportunities related to care delivered by a team
• Identify obstacles and emerge with solutions to increasing productivity and revenue while maintaining quality patient care
• Share current practices and discuss “best practice utilization” of APN/PA/RNs in team based care for high quality, cost efficient care.
• Describe how teams approach the following factors:
  o Shared Priorities
  o Frequent and Effective Communication
  o Physician Accessibility and Approachability
  o Consistency in the Delivery of Patient Care
  o Mutual Trust and Respect
• Examine workflows that have increased efficiency, accuracy and continuity of care for patients
• Describe technology that has been utilized in workflows
• Gain insight into knowledge and skill sets that individual disciplines bring to the team to facilitate a more thorough intervention and improve quality of care/outcomes
